

PERSONAL EXPENSE TRACKER APPLICATION

PROBLEM STATEMENT

A lot of profession has their very own tool for recording their earnings and charges, which they experience that as their foremost pillar in their business development. It is very good practice for someone to record every day charges and incomes, however because of unfamiliarity and insufficiency of right software, missing selection making potential people to use olden notes methods. Due to loss of a complete monitoring device, there's a 2 consistent overload to depend upon the everyday access of the expenditure and overall estimation until the give up of the month.

Who does the problem affect?	People often gets regular salary.
What is the issue?	The paper-based expense tracker system does not provide portability for users, present system uses only paper based records so it's difficult to update payment done and unable to update the location of the payment details .
When does the issue occurs?	When it's hard to remember the number of digits. When there is failure of transactions. When the people of older age finds difficult to understand the handwritten digits. When the paper-based expense tracker records are exposed to fire accident, flood, etc.
Where is the issue occurring?	The issue occurs when the person feels hard to track their income and expenditure.
Why is it important that we fix the problem?	The solution to this problem is, the people who gets regular salary can able to track their payments and avoid unwanted expenses.
